# JOSEPH F. MARTIN NURSERIES

*One-half Mile South of Stop 81  
C. P. & E. Electric Line*

*Painesville, Ohio*

Visitors and Customers Are Always Welcome

*When You Think "Perennials"  
Think "Joseph F. Martin Nurseries"*

**F**N presenting this edition of our Wholesale Price List, we wish to thank our customers for their liberal patronage in the past. And on the basis of service and satisfaction we respectfully solicit your orders large or small.

Nature has endowed us with a perfect nursery climate here in northern Ohio and given us Lake Erie for a near neighbor. She has given us five distinct kinds of soil: clay, sand, gravel, muck, and loam, together with mixtures of these. You can readily see the advantage of this because in growing a varied line of perennials, one plant will grow better in one soil and another in another. Variety of soil and good climate assure us healthy, hardy plants well matured.

In growing our stocks we try to give most careful attention to cultivation to insure prime quality and we take great pains to keep our varieties pure and true to name.

**Our stock consists of nice thrifty field-grown plants**

In making up this Price List we have eliminated many items that we consider unworthy and devote ourselves to the best staple varieties. Special prices on large quantities. Write for quotation stating your needs.

With our seventy-five acres of Perennial Nurseries equipped with adequate store houses, we are able to fill large orders as well as small ones promptly and accurately.

We wish to offer our customers only the best in our line.

Yours respectfully,

JOSEPH F. MARTIN
